Medical Gas Lift Mobile Laptop / Computer Workstation

Based on ergonomic design principle, the column lifting structure can flexibly adjust the working height of the cart. With foot / hand control lifting mode, you can easily lift the column by gently pressing the lifting switch on the side of the armrest or the foot pedal in the center of the base, which not only meets the needs of people of different heights in the East and the West, but also guarantees the comfort of medical staff.

Gas Lift Desktop / Wall Monitor Mount

The Vesa Gas Lift Arm is made of a durable aluminum construction and uses a gas driven suspension technique. This makes the screens "float" and it can be moved effortlessly. Sleek and streamlined,the Vesa Gas Lift Arm frees up space and adjusts the position of the display to improve work efficiency. Easy to move the screen from landscape to portrait position and move the screens close to the desk,apply to where you want to be at work.

Gas Lift Desktop / Wall Monitor Mount

Optimize your productivity and help reduce strain on your neck, back and eyes.
